

Arpe's business policy is an essential corporate element which integrates and inspires commitment to meet interested parties needs through responsible management from the three-pronged area of **Social Responsibility the economic and environmental.**

The Management believes that it is necessary to present its action principles in an Integrated Policy form (quality, environment and social) along with the mission and vision, to guide and inspire the company's actions as well as to reveal the organization's public commitment to all the interest groups.

Therefore, we manifest that **the Company mission is keeping the European leadership in the microfiber fabrics customization in the promotional business and that our vision is becoming a world reference in the creativity, design and innovation of new customized textiles for the promotional market.**

In order to fulfill our goals, assure the high quality of our products and services, protect the environment and promote social values, **Arpe** is committed to introduce and maintain **the Environmental and Quality Integrated Management System** based on the **UNE-EN-ISO-14001** and **UNE-EN-ISO-9001** standards.

To put these principles into practice, the **Arpe's** Management agrees:

- That the purpose of the company's activities is to satisfy the interested parties with products and services of the highest possible quality.
- To assure the provision of materials from the framework of Social Responsibility and guaranteeing their quality.
- To consolidate the company and its workplaces in order to provide stability to **Arpe's** staff.
- To train, prepare and sensitize staff to successfully take on the policy, mission and vision of the company.
- To seek innovation and on-going improvement as a reply to the interested parties needs, the protection of the environment and prevention of pollution.
- To disseminate this policy on all levels of the organization, interested parties, suppliers and other interest groups.
- To take the necessary measures to meet the legal requirements applicable to the activities developed, as well as all of the requirements of the implemented Management System.
- To define and revise periodically the established goals in meeting this policy, within the framework of the process of on-going improvement of the organization's actions.
- To improve continuously the effectiveness of the **Quality and Environment Integrated Management System**, while considering the social aspects brought into the company.
